Dear Friends,

We are so grateful for your continued prayers and support. We truly feel blessed to have such a great support team backing us up and encouraging us along the way. We have had our share of trials and discouragement this last month, and we are so thankful for each of you who have prayed for us and encouraged us to keep going.

Thank you for praying for Jessica's health. We were able to figure out what the problem was, and she has recovered completely! Please continue to pray for her as she enters her last trimester.

The work here continues to move forward. We had asked for prayers for the church's document situation. **We praise God that we were able to get it done!** It took much longer than we had anticipated, but we are thankful that God worked it all out. My pastor and father in law came up to co-sign with us, and our church is now officially legal. Thank you for praying with us!

We continue to go door to door passing our tracts weekly and holding Bible studies with the new converts. Some of the new converts have been going through many trials. Please pray God will give them

victory and that they won't dismay. **Raelly (pictured on the left) got saved!** She and her husband, Adriano and their young son have been coming regularly and we were thrilled to see her saved! **Please continue to pray for Adriano.** He has been burned out with religion. It has taken a while to build a relationship and establish trust, but I feel we are so close to seeing him saved! Pray for him and pray God gives us wisdom to deal with him. We are still having issues with the bar besides church. It had improved for a few weeks, but they are back to making it very difficult for us to have our services there. This has been discouraging for us. Please pray God will give us clear direction as to what to do.

I (Alex), have been having a few health issues for a while now and we recently received a diagnosis for part of it. I have several more tests scheduled for next week to hopefully get some specific answers. We do know that from the diagnosis I received, it is only treatable with surgery. It took us by surprise, as we were not expecting this right now; but we also know God has a plan in all of this, and that we can trust Him. My surgery should still be scheduled for this month. Please pray for us as we try to figure out the logistics of it all. Also pray for a quick recovery so I can be totally healed before the baby comes. My father in law has offered to preach the services here for the first weeks after surgery. We do appreciate your prayers for us.

Thank you for taking the time to read our letters and to pray for us! It truly means so much to us. We couldn't be here without your prayers and support.

Because of Christ,

Alex, Jessica, Joshua, Caleb, Josiah, and Lily Lima
