

# THE SHUMAKERS MISSIONARY CHURCH PLANTERS/HELPS

First Quarter 2020

Dear Supporting Churches,

We wanted to write and update you on what is going on here at Faith Baptist Church in Selmer TN.

In January we saw a young couple with two young boys both get saved. What a blessing! Please pray for the Smith family, they were both baptized in January as well, and were in the new convert class growing before the Covid 19 outbreak.

We also had several visitors starting to come in the first couple of months, which was such an encouragement. We had gotten past so much sickness (cancers) in 2019 and were seeing a few of our regular members starting to come faithfully again. It was shaping up to be a great year.

We like so many others have been greatly affected by the virus that has swept the world. We are having a few show up for services to video...ect. We are uploading some songs and the messages. If you would like to hear some sermons, you can go to the Faith Baptist Church Selmer TN facebook page and play from there. We are also experimenting on different ways to get the gospel out (uncertain times call for unusual methods).

Please pray for us as we have been praying for you. A few of us have met every night for the past few weeks (following the guidelines of course) and trusting God to do His great work during these times. These are dangerous times for God's People. We need to pray that God would keep our hearts with all diligence during this time that many are away from the Lord's house.

Thank you again for your faithful support. We know that we could not do what we do without your prayers and giving.

In His Service,

Mark, Windy, Abigail and Blake Shumaker
