Dear Pastor and Co-laborer,

March-May 2020

### QUARANTINE MINISTRY

While it is certain that ministering in Honduras is quite different than in many other places in the world, including our beloved homeland, the good ole USA, it has become quite similar during the COVID-19 pandemic. Because circulation has been extremely limited since around March 15, our methods of ministering to our church family and our town have converted to almost completely online. We are so thankful for technology, but are so ready to be able to worship together with our precious church family as so many of you. Though in America, some states are beginning to open, it seems as though we are a while away from that still here in Honduras. Please pray for the believers. Pray that they will stay connected to the church family and most of all close to the Lord.

### QUARANTINE ADVENTURES

Maybe you have fought boredom during these days. As a family, we have certainly had our moments, but we certainly have not lacked adventure either. On March 23rd, Callie fell from a hammock and broke her arm. She seems to be healing well. Please pray for her continued healing. Many already know that on April 9th, God blessed our family with a precious baby girl, Cora Grace. God's goodness and grace before, during, and after her birth have been truly overwhelming. He is so faithful. Finally, we are moving to Santa Rita! Since starting the church, almost nine years ago, we have lived about 25 minutes away in the town of El Progreso. We are very thankful for the nice place

we have had to make our haven, but are so excited that we will finally be closer to our people and less than a mile from the church. We have prayed about this move for quite some time and never dreamed it would finally come to pass in the middle of times like these. Among the many things God is teaching us through all of this, one is that His ways are certainly not ours.

### QUARANTINE PROVISION

Without a doubt, many people the world over have experienced difficult moments during this pandemic. The people of Santa Rita and our church are no exception. Some have gone weeks without work due to the nation-wide lockdown. For some people that live day to day, this has been a serious trial. However, in trials we can often see more clearly our Father's provisional hand. Without soliciting aid to help these folks, the Lord provided finances four different times. On these occasions, we were able to help several families with basic provisions throughout the two-month lockdown. We praise the Lord for showing Himself real and present even in helpless moments.

Because He Lives,
