Planting Churches

### Dear Partners in Ministry,

Belize is on a total lockdown. Church services have been forbidden, even in small numbers. It takes sometimes TWO or THREE DAYS in line at the store (literally from before sunup until curfew) just to buy essentials. There are no jobs available for those who previously depended on tourism for a living.

The "rest of the story" is that people are more open to presentations of The Gospel. Folks who were knocking on our door begging us to give them food just a few years ago are trusting God to help and provide. One lady from Bayside Baptist Church has been able to open a Pharmacy which ministers to the community and helps provide for her family. The village where one of our Pastors lives has asked him to sell them a plot of land ( for additional community housing) and, not only are they paying for the land, but replacing it with a plot further out, free of charge!

**Please pray about this:** On September the 16th, David will be having kidney surgery. This is directly related to his cancer situation. David has been diagnosed with cancer for the third time this year. The cancer is growing slowly but we have been told that there will be additional treatments at the beginning of 2021 unless God intervenes. Please pray that David will be healthy enough to return to Belize in November, if the country opens for international travel as announced by the government.

*Thank You for Your Prayers and Support.*
