

Reaching every *nation*,
one *ship* at a time.

HELP! Praise the Lord we now have help from three men in our church here in Virginia Beach, who have their TWIC cards and are able to board ships with us. Their first experience aboard a ship was with a crew of men from **Bangladesh!** The country of Bangladesh is situated between India and Myanmar. Well over **90%** of its Bengalis are Muslim, as Islam is the official state religion. We visited their ship several times and spent hours reasoning with them about their eternal soul!

Buddha This false teacher has been used of Satan for thousands of years to deceive millions into the denial of any supreme deity and to devote their lives to seek nirvana, a state of bliss that transcends suffering. Monks desperately attempt to attain it through fasting, meditation, solitary confinement, and in many cases, severe bodily harm. So ensnared are the **Burmese** people. When in the right place, thousands of ancient Buddhist temples can be seen across the beautiful country of **Myanmar**. One can hear the low and eerie chanting of the lost millions seeking and searching for immortality. This month, we had a ship in port for five days with many men from this country. **Ye Win** was one of these men. Upon boarding his ship, and

giving him a Bible, he began to express a tender heart toward the beautiful Gospel message! I went back to visit with him each day and he even gave up his thirty minute break so that we could study the Bible together. Although he didn't make an immediate decision, he certainly understood what he needed to do. Just before his ship departed, I gave him several good Bible study books and told him, "You know, God would LOVE to use YOU to preach Jesus Christ to your own people!" Ye Win smiled and replied, "I learn and study first, then I go preach and teach to others." What a thrill to be able to go behind and water the seed planted so long ago by Adoniram Judson to the Burmese people! Please pray as I continue to correspond with him whenever he has internet access.

Countries Reached Myanmar, China, Vietnam, the Philippines, Bangladesh, India, Bulgaria, and Greece. We snuck away for a few meetings in Ohio as well and have one new supporting church. Praise the Lord! Haylee's parents also came up to visit us for a few days and my father-in-law was able to board ships with me.
