Living Hope Baptist Church

* The church has grown over the last month since Mexico City area moved to "green"

* This month we started our second tri mester of classes in the Valley Baptist Bible Institute with 2 new students enrolled.

* We are still meeting on Sunday mornings in open air because of space restrictions. We are waiting by faith the provision of the permanent location God has promised us.

* We have had to deal with sin in the church, and praise the Lord for His love and mercy and the ministry of restoration.

Lighthouse Baptist Church

* Aurelio & Pedro are growing in doctrine and practice as they lead this work. Our goal is to establish a full time pastor in about a year when they finish their studies in the Bible institute.

* It's a blessing twice a month to visit and see their growth.

* We are planning a combined baptismal service for the end of April for both churches.

First Baptist Church

* Carlos y Areli have been working diligently on starting the church in the state of Queretaro.

* God has blessed them with new families

* Because of Covid restrictions they have postponed the "official" start of the church.

Rebecca and I celebrated 17 years in February. I am thankful for such a godly wife.

"Promised Land" Property Project

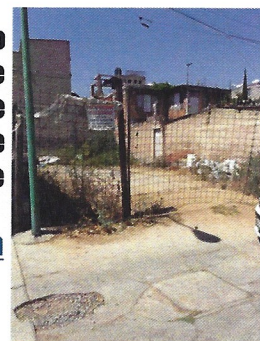

The "Jardin" or garden where we have been meeting is no longer an option.

We are currently looking at 2 options. The one property is on the main avenue. The owner wants cash and doesn't want payments.

There other one we are investigating is 3 blocks off of the main ave.

God has given me the promise that we will have the funds needed by June. Both properties are valued at \$75k. God has provided over 25k so far.

If you would like to invest in this awesome opportunity for the expansion of the church and institute please contact us at chiefcities@gmail.com or 215-550-9179

Family Corner

* Rebecca's had some rough days in the transition of her medicine for MS. Please pray that her body will adjust to it and the insurance company will reimburse us in a timely fashion.

The new medication cost 12,000 USD a month. Praise the Lord, that our insurance covers it 100% by reimbursement.

* Saul & Debbie are expecting their 1st child. We are so excited for them.

Debbie has had a lot of the nauseousness that can be common with some pregnancies.
