January/February 2021 Prayer Letter

Dear Friends and Supporters,

We want to begin by thanking all of those who are supporting us, both financially and in prayers. You are all a great blessing to us and we wouldn't be where we are without you.

Over the last two months we have been wrapping up all of our responsibilities back home so that now we are as of March 1 on full-time deputation. It took a lot of work to get here and God answered prayer in every way. Most of our personal possessions are now in storage, but we were able to purchase the cargo trailer we had mentioned in our previous letters and we are able to carry a lot of stuff with us while we travel. We would ask that you PLEASE PRAY for us to have safety as we travel and for me because I have never driven while hauling a trailer before.

For those of you who have children you know how hard travel can be, especially with small kids. Our children love to travel. They are excited by all the different hotels and prophets chambers we stay at and the different churches we visit. I am so thankful for a wife and kids who are so adaptable to any situation, and sometimes they do better than I do. PLEASE PRAY for our family to adjust well to full-time travel.

Our schedule is just about filled up through the month of July. For some reason I have had great success in scheduling meetings back east, especially in Maryland. PLEASE PRAY for us to continue to be able to schedule meetings through the rest of this year. God has been good to us in this area. Also, PLEASE PRAY that our support would come in quickly so that we can get to our field in Riverside as quickly as possible.

After much prayer we are excited to announce the name of our church plant as Revival Baptist Church. We wanted a church name that would stand out in our area. While there are a lot of Faith, Victory, Grace, Bible, and Lighthouse Baptist Churches, there are no churches in our field that I have seen with the name Revival. It also perfectly identifies what we are praying for God to do in Southern California. While many people have given up on California, we believe God will do an amazing work, and that a great revival will take place, as long as we are faithful as His servants.

Our current support level is at 28%.
