

The Spear Family Christmas Update

2021

We wanted to take a moment to say Merry Christmas to all our faithful supporters and prayer partners all around the country. We hope you are able to enjoy time with your family and friends on these special days of the year.

From Thanksgiving until January 6 (3 Kings Day) our island is home to noisy parades, bright lights, fireworks and celebrations. After eight years here it is still a great experience for us. It never gets old!

We have enjoyed our time with our church families over the holidays including a special Thanksgiving/ anniversary service. coming in a few days **we will have our Nochebuena (Christmas Eve) service as well.** We launched the season with a special campaign into a local apartment complex where **we passed out 120 BEAMS bibles, tracts, candy and invitations to church.** It was great to have most of our church out to help us with the event. They were excited about it and have they would like to do more like it in the future.

We have also been excited to **see new guests and returning families over the last two months.** Carmen and Scott seem to be staying and now we have seen Abner and Christina attending. They will officially be moving to the island with their four teenagers January 6th.

Juan told me last week, **"God is growing His church in His time.** and nothing we do for Him goes without results!" We are not the only ones excited to see the fruit of the whole church's labor.

We appreciate your prayers as we look towards a new year of serving and growing together. Thank you all for your prayers, financial support, and Christmas offerings!
