Braselton, GA 30517  
706-654-2818

### Summer Ministries

January and February are our summer months here in Peru. We celebrated the anniversary of Iglesia Bautista Calvario (Calvary Baptist Church) in January. We also held two vacation Bible school programs in February. The Stover family led a team in Viñani, and Pastor Henry and I led a team in Cinthia (near the land for the school project). It was a great blessing to have over 50 children and many parents attend in each location. We were able to present the gospel each day and see children and parents accept the Lord as their personal Savior in both programs. Please pray as we continue to work in these two locations to see ministries grow and eventually churches planted in these areas of the city.

We then held a work day on the school property to build a shade structure out of wood poles and grass mats. This will allow me to hold weekly Kid's Bible Club each Saturday. This is the first ministry that I have been able to use the school land for and it thrills my heart to see God working in this location even as we wait for the funds to come in for our initial building program.

### Building Program

God has blessed beyond my dreams for us to be able to buy the 1,008 square meters (10,850 square feet) of land for a Christian school. I have budgeted \$35,000 for the initial phase of building in order to be able to start the school project in March of 2023. We have already received \$14,000 of that money! Please pray with me that the additional \$21,000 will come in by April so that we can build and have time to be approved to start this next school year! I am currently meeting with architects to prepare official plans for our buildings. We will then build the brick security wall and three initial classrooms to start the kindergarten program. As God blesses we will build more office spaces and an auditorium on the first floor to complete Phase 1 of the building. I am praying that God will allow us to use the auditorium space to also start a new church on the property in the next few years. In Phase 2 we will build the second floor and start the elementary school classes, and in Phase 3 we will build the third floor for the high school classes. Please pray that God will bless this new ministry, and that He will give me wisdom in each step of the process.
