May – June 2022

Dear Pastor & Church,

We had one very large offering for the church building fund and a few other offerings that were a good size offering as well. We, as of today, have 380 million Rupiah in our building fund bank account. That comes to around \$25,850 US dollars. Also, we just paid our own house rent here in Indonesia in advance for the next two years. That seems strange to you in the states but here all rent is paid at least one year in advance. Now we will start saving all our extra personal support to pay church rent as we must move by October. The owner of our store front says he needs the space for warehouse storage for his other businesses. All funds given for the church building fund goes into a special account that we do not use for anything but building fund. The church rent will not be paid out of that fund but we will pay it only from our support or any offerings that are marked for church rent. It's been an exciting two months seeing what God is doing.

This past weekend we visited in our son Joshua's new work. It was just their third Sunday and they had 19 in attendance with one first time visitor. Also, Joshua got news a young man he had been working with at the previous work he was attending got saved last week.

Our people are so encouraged by the special offerings that it's really showing in their giving by direct transfer to our building fund. On our church texting group, we are getting news of new transfers to building fund several times a month. That is not just exciting it's encouraging to see them wanting to and giving to the building fund. Last time we built a church here we spent around \$30,000 US but this time as in the states prices are way up so it's going to take around \$100,000 or more this time. Most of our reports will focus on the need for funds for the purchase of a place for Jubilee Independent Baptist church.

Thank you for praying and giving and making it possible for us to be here and serve.

Love in Christ,

Stanley & Melinda
