# THE CAMPBELL FAMILY

## MISSIONARIES IN QUEBEC

We're in the thick of winter right now which means keeping the snow shovel close by and the snowblower in working order. With 10 feet of snow falling annually, if you don't stay on top of it, you'll soon be buried under it! The weather this winter has been very different from the others we have experienced so far. In February, we had windchills of -50F one week and rain the next with a high of 40F!

Winter has been tough on everyone's health lately. This is the time of year where our immune systems are already low with the lack of sunshine. The whole month of February our family has been battling colds and fatigue. There has been a lot of sickness in the church as well so we would greatly appreciate your continued prayers for our health.

We have had great participation in our church activities this winter. We began hosting family game nights at the church, which has been a great way to get to know our families better and have fun together. It's a great time for the kids and adults alike. We also have a breakfast each month for the men and for the ladies. With all the new people that have been added to the church, these activities have been a great way to grow closer together as a church family.

With all the new people added to our church, it quickly became clear that our coatroom was too small! Our men quickly jumped on the task of creating a new space that would accommodate all of our winter gear.

Our church Christmas play went very well. Ashlyn did a great job writing the script for the play and preparing the props and the songs. The kids did an awesome

job performing as well as our adult ensemble. There were several visitors that attended and heard the Gospel message.

We recently finished our first Bible institute class and I'm proud of those who persevered to the end and are looking forward to the next class! We are planning to offer a New Testament Survey course in April.

Most of the children at the church are 10 years old and under with Ashlyn and Dakota being the only teenagers for the moment. While they do great job interacting with the younger kids, they have especially

enjoyed doing activities with the teens in our sister church at St-Augustin. In January, we were able to organize a survival activity in the woods and also a cooking challenge in February.

Our son, Denver is 5 months old now and doing well. He is a growing fast and is definitely the center of attention in the family! In January, Sarah and I were able to get away for a couple of days to celebrate our anniversary. I'm thankful for a wife that has stuck by my side and has been an indispensable partner in the ministry.

In all these projects and activities, it's been encouraging to see people ready to serve one another in love. God is at work bringing people together and preparing us for greater service here in Quebec. What's even more encouraging is being able to see all the churches and individuals like you, who pray and give sacrificially to support the work He is doing. We thank you all from the bottom of our hearts and we pray that the Lord will bless you all in His service!
