Dear Praying Friends and Supporters,

March April 2023

Excitement, overwhelming peace, and great joy fill our hearts and minds as we write about the purposed work and precious burden God continues to grow in this ministry of church planting in Colorado. "Success is built on a mound of failures," is a constant encouragement we heard from Bro. Roloff years ago. Pressing toward the mark and encouraging others to do the same is always opposed by our own inabilities and failures, but thanks be to God for his grace and power. "Whereunto I also labour, **striving** according to his working, which worketh in me mightily," Col. 1:29. We must trust God to work, while we strive with everything in us to faithfully preach the gospel to every creature.

We had the opportunity to be at our home church for Resurrection Sunday and was invited to preach on the street in between services. It is always a joy to share the gospel, but the street ministry has a special place in our heart. What stirred us the most was when Titus jumped right in motioning people to roll down their windows and slipped tracts in the opening. Someone asked him where he learned to do that so boldly. He replied, "Colorado." Somebody hold our mule while we shout. It's not vain to serve the Lord, because someone is always watching!!

We are still talking with Keith and answering his questions as they arise. He has not followed through with a visit to church, so help us pray for convicting and convincing power. JR has really opened up and talks to us every time we see him. He recently gave a fist pump and called us friend. The last time we spoke, he was asked if he had given any thought to the gospel tract he received the first time we met. He replied, "I think about that **EVERYDAY!**"

We are gaining promise of support almost every week. As the miles pile up and the nights seem long, PRAY for strength to continue this leg of our journey, so we can once again preach the gospel to those awaiting souls in Colorado. We desire confidence, compassion, and courage as we travel the roads and present the burden and necessity for church planting in Colorado.

Cultivating For Colorado,

Teddy Angel
