September-October 2023

Dear Pastor and Church,

This is one report we have been wanting to and waiting to write since we first started the process of buying our church building. We praise the Lord to report our church building is totally paid for due to love offerings over the last several months. We also have a surplus of around \$2000.00 and we have already started a building fund for one day building a second story that will enlarge the room we now use for the church service by four times. Rather than remove the house walls as they are brick walls with cement finishes, those walls of the five rooms will be the foundation for pouring a cement floor giving us one large open area upstairs and thus the down stairs can then be used for Sunday school rooms.

After two weeks of bad colds and then right into a 3 day long stomach bug we are thankful to report at this time we are both well at the same time. It's already getting toward the end of October so that is why I am a bit late getting this report out.

Thank you so much for your prayers, faithful financial support, love offerings and special gifts on the church building. May the Lord greatly bless each of you.

Love in Christ,

Stanley and Melinda
