

## DECEMBER 2023 THE HILL FAMILY

Church Planting Missionaries to North Idaho

### So Much To Celebrate

Throughout this fall season God has done so much for us and our Church family. We have seen Him add families to the Church, finish major portions of our construction project, and bless us with several new visitors along the way.

In October we were able to add 3 new families to the Church. They had been visiting for months and just recently finished our new members Core Class. Each family has been such an encouragement and blessing to our Church family since their arrival. We praise the Lord for His growth & goodness to us.

In November we were able to see some amazing progress on our church building. We were able to get the electrical rough in completed and the inspection passed, which was a huge step for us. We were also able to get all of the drywall hung, the finish electrical complete, and our HVAC installed. It has truly been a blessing during these cold months. All of these have been such an amazing blessing. It's easy to take for granted, working lights, divided classrooms, and heat and air-conditioning. I can tell you this Thanksgiving we had a lot to be thankful for.

And as if God has not already blessed us more than we could ever imagine he has continued to allow us to have new visitors joining us each and every week who are excited to find a church like ours.

### Growth & Goodness

New driveway and drive under just in time for winter
