

# MARCH 2024 THE HILL FAMILY

Church Planting Missionaries to North Idaho

## Melting the Ice

This winter season has been somewhat of a mild winter for us here in the Mountain Northwest. We still had cold temperatures and plenty of snow but not near as much in the years past. Though our weather has been mild, God's hand has been anything but. We are so thankful to have seen several come to know Christ since the 1st of the year and even a little boy named Daniel just got saved this past Saturday night. Praise the Lord!

With the Lord working so mightily we are preparing for another Baptism Sunday, which we will do on Easter Sunday. We have 11 in our new members class with 9 to be baptized. It is an exciting time to watch God work and melt hard hearts. We still have several spouses and family members of our Church that need to except Christ as their Saviour. We have over 20 currently enrolled in Discipleship and hope to help them reach their families for Christ this year.

Even with all of the sickness and tribulations within our Church family we have still averaged over 50 each Sunday and have steadily seen our Midweek Bible Study & Kids Bible Club grow.

We are still making steady progress on our building and have completed the foyer and are almost finished with the Auditorium. It has been such a blessing to see the men of our Church take over this project and work together so that we can reach more of our community to Christ.

## Growth & Goodness

Foyer & Auditorium almost complete. The wood stove has been removed and the platform completed. Carpet and trim are coming soon & the foyer is completed.

We had 5 couple attend a regional Marriage Retreat this year
