July 2026

Dear Partners in Ministry,

We have spent some time in the States working with doctors to treat my cancer, but our ministry in Belize has expanded. I have been asked to begin teaching online Bible study in the town of Orange Walk, where I am also advising a pastor whom I ordained. I get texts like this regularly: "Thank you for leading us closer to God, teaching us His Word with love, and guiding us on the right path. Your prayers, faith, and dedication have touched our hearts and strengthened our walk with Christ." Even while we are away, the folks at Island Baptist Church continue to meet at church on Sundays for worship, knowing that we will return in about three weeks to work with them in person.

Thank you for praying- I am asking you to continue praying about this. Since our last letter, I have had another in-hospital surgery to remove yet more cancer from my right arm and chest. I have had an MRI plus two scans and an x-ray to identify the source of additional severe pain, and on July 30th, I will be having a THIRD MRI targeting a specific place on my spine, as well as a brain scan. The nerve specialist says that he has experience with a melanoma case which caused the exact symptoms that I have, which was caused by a tumor on the spine. There is no firm diagnosis yet without the MRI and scan results... so I am asking that you pray that the Lord will allow us to continue ministry in Belize and that the scans on July 30 will be negative. I apologize for the short notice, but I have had only a few days to process all of this, and I am telling you as much as I have found out in these past few days. If you are reading this after July 30th, please pray that we will be able to determine the Lord's will about our future. We are winning souls. We are planting Baptist churches. And we will not quit!
