MUSCOTT GUYANA

Dearest Church Family, July 22nd, 2026

LORD BLESS OUR HOME: The nuclear family is almost non-existent here in Guyana. Most people live by common law. No faithfulness. No commitment. No true love. In many cases, a man will have multiple sets of women and children in several locations. Praise God, we have several young family units in our church who are growing. Pastor Aaron Denson came with a group of I9 from their church and hosted a much needed family conference for us. The singing and fellowship was great, but the preaching was just what we needed! We also rejoice in the recent salvations of Clyde and Mary.

WARRO: After our combined services and fellowship on Sunday, we took our team from Texas up the Kaituma river to visit the Warro. We were able to set up a battery projector and speaker in the overcrowded, thatched-roof benab, where we showed a gospel film dubbed in the Warro language!

SHIPWRECK: The MV Barima, a I3I foot cargo vessel, has been shipping passengers and cargo to our village for 87 years. On Saturday night, it left Georgetown bound for Port Kaituma. At I0:30PM, the severely overloaded ship carrying more than I70 men, women, and children, capsized in the Atlantic. Survivors clung in the dark waters to anything that would float. As of now, there are over I03 who did not survive. The entire region is in deep mourning.

RESCUED: But hearts are tender. Jose DeSilva, a I9 year old man clung with 7 others to the lid of a cooler. For eight hours they floated until they were rescued at dawn. A family member reached out to me and invited us to visit his family. After spending over an hour in the Bible, Jose bowed his head and trusted Christ as his Savior! Now, he is not just rescued, but he is SAVED! Please pray for his healing and spiritual growth. Please pray that God would let us see many more souls saved during this time of great loss.

Your Servants in Christ,
Blake, Haylee, Sabina, & James
